

Product Specification Sheet

10 ft x 10 ft Blank Canopy Tents

10 ft x 10 ft Blank Canopy Tents cover the standard outdoor vendor booth footprint on a hexagonal aluminum pop-up frame. The canopy fabric is 600 D polyester, factory-dyed in solid stock colors with no printing applied. This is the right shelter when you need a tough, reliable overhead structure and plan to handle branding separately through banners, flags, and table covers.

Material

600 D polyester canopy fabric on a hexagonal aluminum frame.

Higher denier thread density means a thicker, tougher weave that resists tearing under wind load.

Print Method

No printing. Solid-color factory-dyed canopy only.

No dye sublimation or inkjet process is applied, which is why blank tents ship faster than custom-printed versions.

Color Output

Solid stock colors only. White, black, blue, red, and green are typically available.

Color availability may vary by size. Full-color graphic output is not available on a blank canopy.

Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included.

Frame and canopy ship together as one unit, ready to roll across a parking lot.

Size

10 ft x 10 ft.

Fits a 6 ft table, 2 chairs, and enough open space for customers to step inside.

Indoor/Outdoor Rating

Outdoor use. Water-resistant and UV-treated canopy fabric.

Expect roughly 2 to 4 years of regular outdoor use from the fabric under normal seasonal conditions.

Single/Double-Sided

Single-sided canopy top. Optional sidewalls sold separately.

Full, half, and window sidewall options attach to the frame for wind protection or enclosure.

Weight

Frame runs roughly 40 to 60 lbs depending on frame material.

The wheeled carry bag handles transport so you're not lifting the full weight across a venue.
