

Product Specification Sheet

20 ft x 10 ft Blank Canopy Tents

20 ft x 10 ft Blank Canopy Tents cover roughly 200 sq ft on a hexagonal aluminum frame with a solid-color 600 D polyester canopy top. This product ships unprinted and ready for outdoor use. It's the right structure when shelter is the job and your branding travels separately on banners or flags.

Material

600 D polyester canopy on a hexagonal aluminum frame.

Higher denier thread density means a thicker, tougher fabric that resists tearing and holds its shape in wind.

Print Method

No printing. The canopy fabric is factory dyed in solid stock colors only.

Skipping the print step is why blank tents ship faster than any custom-printed canopy we offer.

Color Output

Solid color only. No CMYK printing on the canopy top. Stock colors typically include white, black, blue, red, and green.

Color availability may vary by size, so confirm your color on the product page before ordering.

Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included.

Optional sidewalls (full, half, or window) sold separately.

Size

20 ft x 10 ft. Fits two standard 6 ft tables side by side with room for customers to step inside on both ends.

Indoor/Outdoor Rating

Outdoor use. Water-resistant and UV-treated canopy fabric holds up roughly 2 to 4 years with regular outdoor use.

Always anchor the frame when sustained wind exceeds 25 to 30 mph.

Single/Double-Sided

Single-sided canopy top. The solid color reads the same from all sides. Optional printed sidewall panels attach to the frame for added display surface.

Weight

Frame runs roughly 40 to 60 lbs. The wheeled carry bag handles the full load across flat ground without a cart.
