

Product Specification Sheet

20 ft x 13 ft Blank Canopy Tents

20 ft x 13 ft Blank Canopy Tents give you roughly 260 sq ft of shade on a hexagonal aluminum pop-up frame with a solid-color 600 D polyester canopy. No custom printing. Best for event organizers and outdoor buyers who need sturdy, fast-deploying shelter without overhead branding.

Material

600 D polyester canopy fabric on a hexagonal aluminum frame.

Higher denier thread density means a thicker, tougher weave that holds its shape and resists edge tearing outdoors.

Print Method

No printing. Canopy is factory dyed to a solid stock color.

Skipping the print step is why blank tents ship in 1 to 3 business days, faster than any custom-printed canopy.

Color Output

Solid stock colors only. No CMYK full-color graphics on the canopy top.

White is the most common stock color. Availability of other colors varies by size.

Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included with every order.

The bag holds the collapsed frame and canopy together so one person can roll it to the setup site.

Size

20 ft x 13 ft. Coverage area is roughly 260 sq ft.

Rectangular shape suits straight serving lines, multi-table vendor setups, and sideline coverage.

Indoor/Outdoor Rating

Outdoor use. Water-resistant and UV-treated canopy fabric.

Expect 2 to 4 seasons of regular outdoor use before noticeable fabric wear. Always anchor in wind above 25 mph.

Single/Double-Sided

Single-sided canopy top. Solid color reads the same from all sides.

Optional sidewall printing is available as an add-on for buyers who want partial branding on the walls.

Weight

Frame weight runs 40 to 60 lbs depending on frame material.

The hexagonal aluminum frame sits at the lighter end of that range, making it manageable for a two-person crew.
