

Product Specification Sheet

20 ft x 20 ft Blank Canopy Tents

20 ft x 20 ft Blank Canopy Tents run on a hexagonal aluminum frame with a solid-color 600 D polyester canopy top. No printing is applied to the canopy fabric. This is the right tent when you need sturdy, weather-resistant overhead coverage fast, without a custom branding step.

Material

600 D polyester canopy fabric on a hexagonal aluminum frame.

Higher denier means a thicker, tougher weave that resists tearing under wind load.

Print Method

No printing. Canopy is factory dyed in a solid stock color only.

Skipping the print step is why blank tents ship faster than any custom-printed size.

Color Output

Solid color only. No CMYK full-color graphics on the canopy top.

Stock colors typically include white, black, blue, and red. Color availability may vary by size.

Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included.

Two people can roll the collapsed tent from a vehicle to the setup spot.

Size

20 ft x 20 ft. Covers roughly 400 sq ft of ground.

Peak height reaches approximately 10 to 11 ft at the canopy center.

Indoor/Outdoor Rating

Outdoor use. Water-resistant and UV-treated canopy fabric.

Expect roughly 2 to 4 years of regular outdoor use before noticeable fabric wear.

Single/Double-Sided

Single-sided canopy top. Solid color reads the same from all sides.

Optional sidewall panels are available separately for wind protection or added enclosure.

Weight

Frame weight runs 40 to 60 lbs depending on frame material.

The wheeled carry bag handles transport so you're not lifting the full load across a field.
