

Product Specification Sheet

26 ft x 13 ft Blank Canopy Tents

26 ft x 13 ft Blank Canopy Tents ship as a solid-color outdoor shelter on a hexagonal aluminum frame. The canopy fabric is factory-dyed 600 D polyester with no custom printing involved. This is the largest blank tent in the lineup, built for multi-vendor layouts, registration areas, and large event setups that need uniform shade across a wide footprint.

Material

600 D polyester canopy fabric on a hexagonal aluminum frame.

Higher denier means a thicker, tougher weave that resists tearing at the seams after repeated outdoor use.

Print Method

No printing. The canopy is solid-color and factory-dyed.

Color runs through the material rather than sitting on the surface, so there's no ink layer to crack or peel.

Color Output

Solid stock colors only. No CMYK custom graphics on this tent.

Typical options include white, black, blue, red, and green. Check the configurator for current stock.

Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included.

The collapsed frame and canopy travel as one unit inside the bag.

Size

26 ft x 13 ft. Covers roughly 338 sq ft of ground area.

Peak height runs approximately 10 to 11 ft at the center of the canopy.

Indoor/Outdoor Rating

Outdoor use. Water-resistant and UV-treated canopy fabric.

Expect 2 to 4 years of regular outdoor use with proper care and dry storage between events.

Single/Double-Sided

Single-sided canopy top. Solid color reads the same from all angles.

Optional sidewall panels (full, half, or window style) are available separately.

Weight

Frame weight runs 40 to 60 lbs depending on frame material.

The aluminum frame sits at the lighter end of that range, making two-person carry manageable from vehicle to setup location.
