

Product Specification Sheet

5 ft x 5 ft Blank Canopy Tents

5 ft x 5 ft Blank Canopy Tents cover roughly one small table or a single sampling station. The canopy runs factory-dyed 600 D polyester on a hexagonal aluminum frame, with no printing step involved. This is the right pick when shelter matters more than overhead branding.

Material

600 D polyester canopy fabric on a hexagonal aluminum frame.

Tightly woven threads resist tearing and hold shape through repeated outdoor setups.

Print Method

No printing. Solid-color canopy fabric is factory dyed, not printed.

No dye sublimation or ink layer exists on this tent's canopy.

Color Output

Solid color only. Stock colors typically include white, black, blue, and red.

Color availability may vary. No CMYK or full-color graphics are possible on this canopy.

Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included.

The bag rolls the collapsed unit across a parking lot or event floor.

Size

5 ft x 5 ft. Covers roughly one small table or a single-person sampling station.

This is the smallest size in the blank canopy lineup.

Indoor/Outdoor Rating

Outdoor use. Water-resistant and UV-treated canopy fabric.

Expect roughly 2 to 4 years of regular outdoor use before noticeable fabric wear.

Single/Double-Sided

Single-sided canopy top. Solid color reads the same from all angles.

Optional sidewall panels are available separately for added wind protection.

Weight

Frame weight runs roughly 40 to 60 lbs depending on frame material.

The aluminum frame sits at the lighter end of that range.
