

# Product Specification Sheet

## 8 ft x 8 ft Blank Canopy Tents

8 ft x 8 ft Blank Canopy Tents ship on a hexagonal aluminum frame with 600 D polyester canopy fabric factory dyed in solid stock colors. No printing step means production runs faster, typically 1 to 3 business days. This tent covers roughly 64 sq ft of ground, enough for one 6 ft table and one to two chairs.

### Material

600 D polyester canopy fabric on a hexagonal aluminum frame.

Tightly woven 600 D denier fabric resists tearing and holds shape through repeated setups and breakdowns.

### Print Method

No printing. Solid-color canopy, factory dyed.

Skipping the print step is why production is faster and cost is lower than custom-printed versions.

### Color Output

Solid stock colors only. White, black, blue, red, and green are typical options.

No custom color matching or full-color graphics on this product. Availability varies by size.

### Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included.

Frame and canopy pack into one transportable unit for single-person carry across a parking lot or field.

### Size

8 ft x 8 ft footprint. Roughly 64 sq ft of ground coverage.

Fits one 6 ft table and one to two chairs with a small amount of standing room at the open sides.

### Indoor/Outdoor Rating

Outdoor use. Water-resistant and UV-treated canopy fabric.

Expect 2 to 4 years of regular outdoor use from the fabric and 5 to 10 years from the aluminum frame with proper care.

### Single/Double-Sided

Single-sided canopy top. Solid color reads the same from all sides.

Optional sidewalls (full, half, or window style) are sold separately for wind protection or added display space.

### Weight

Roughly 40 to 60 lbs depending on frame configuration.

The aluminum frame is the primary weight component. The wheeled carry bag handles transport for one person.
