

Product Specification Sheet

6.5 ft x 6.5 ft Custom Canopy Tents

6.5 ft x 6.5 ft Custom Canopy Tents run on a 600 D polyester canopy printed with full-color dye sublimation and mounted on a hexagonal aluminum pop-up frame. This is a mid-size outdoor shelter built for solo vendors and small teams who need a branded presence in compact booth spaces.

Material

600 D polyester (a tightly woven outdoor fabric) with UV treatment and water resistance.

The UV treatment slows color breakdown from direct sun so the canopy holds its color longer outdoors.

Print Method

Full-color dye sublimation. Ink bonds into the polyester fibers, not onto the surface.

The print cannot peel, crack, or bubble, even after repeated outdoor seasons.

Color Output

Full CMYK color range across the canopy top and valances.

Logos, gradients, and photographic images all reproduce accurately in a single print pass.

Finishing

Pop-up scissor frame that expands and locks without tools. Wheeled carry bag included.

Both come standard with every order at no extra cost.

Size

6.5 ft x 6.5 ft canopy footprint. Fits one standard folding table and one to two chairs.

This size covers compact booth allotments in the 6 to 7 ft range.

Indoor/Outdoor Rating

Rated for outdoor use. Expect 1 to 2 seasons of regular outdoor use before noticeable fading.

Water-resistant and UV-treated fabric holds up through light rain and direct sun.

Single/Double-Sided

Single-sided canopy top printing is standard. Optional sidewall printing is available separately.

Full walls, half walls (roughly waist height), and window walls are each sold as add-ons.

Weight

Frame weight runs roughly 40 to 60 lbs depending on frame material. The aluminum frame sits at the lighter end of that range.

Solo transport is realistic with the wheeled carry bag included in every order.
