

Product Specification Sheet

Oval Fabric Pop Up Booths

Oval Fabric Pop Up Booths are full-enclosure branded pods built on a collapsible aluminum frame with tension fabric graphics. Every booth ships with the frame, fabric graphic, and carry bag. These are the largest format in the pop up display subcategory and the only option in this line that puts you inside the display.

Material

Tension fabric polyester stretched over a collapsible aluminum frame.

The fabric stays smooth and taut across a multi-day show with no sagging or bunching.

Print Method

Dye sublimation. Ink converts to a gas and bonds directly into the polyester fibers.

Color does not sit on the surface and cannot peel or crack after repeated use.

Color Output

Full-color CMYK (cyan, magenta, yellow, and black combined to reproduce any brand color).

Every booth we print runs full color at no additional charge.

Finishing

Collapsible aluminum frame with tension fabric sleeve that fits over it like a fitted cover, hiding all hardware.

No exposed poles or connectors visible from the outside.

Size Range

Oval enclosure format. Exact footprint dimensions vary by configuration.

Contact us before ordering if you need to confirm the footprint fits your floor assignment.

Indoor/Outdoor Rating

Indoor use only. Not rated for outdoor wind or rain.

Plan for covered venue use at all times.

Single/Double-Sided

Full enclosure. All exterior-facing surfaces carry your graphic.

Interior surfaces can also be printed if you greet visitors from inside the booth.

Weight

8 to 25 lbs depending on configuration and size.

Carry bag included with every order.
