

Product Specification Sheet

Silverstep 24 Inch Tabletop Retractable Banner Stands

Silverstep 24 Inch Tabletop Retractable Banner Stands sit on a table surface and run a single-sided vinyl graphic in a spring-loaded retractable cassette. The 24 in width suits registration desks and check-in counters where display space is tight. Both UV cured and dye sublimation print methods are available depending on your material and finish preference.

Material

Single-sided vinyl graphic pre-installed in the retractable cassette.

Vinyl gives you a smooth, wipe-clean surface that holds crisp color at close tabletop viewing distances.

Print Method

UV cured or dye sublimation printing.

UV cured bonds ink to vinyl under ultraviolet light. Dye sublimation absorbs ink into the material for a no-glare finish.

Color Output

Full-color CMYK.

CMYK reproduces logos, photos, and gradients accurately across the full graphic width.

Finishing

Retractable cassette mechanism.

The cassette stores the graphic under tension and lets you pull it up or retract it in seconds without tools.

Size Range

Width: 24 in. Tabletop format, sits on a table surface. Multiple height options available within this format.

Indoor/Outdoor Rating

Indoor use only.

Not rated for outdoor wind or rain. Suited for lobbies, conference rooms, and retail counters.

Single/Double-Sided

Single-sided.

The graphic faces one direction, which suits registration desks where visitors approach from the front.

Weight

Roughly 8 to 25 lbs depending on display type and size.

A travel bag ships with every unit so transport between events needs no extra cases.
