

Product Specification Sheet

Silverstep 36 Inch Tabletop Retractable Banner Stands

Silverstep 36 Inch Tabletop Retractable Banner Stands run on a silver and black aluminum base with a spring-loaded cassette mechanism and telescopic support pole. The vinyl graphic comes pre-installed and retracts cleanly into the cassette housing after each event. This format suits indoor conference tables, registration counters, and lobby check-in desks where seated eye-level visibility matters most.

Material

Vinyl graphic surface, pre-installed in the retractable cassette.

Vinyl holds color well under indoor lighting and wipes clean between events.

Print Method

UV cured or dye sublimation printing.

Both methods bond ink directly into the vinyl so colors stay sharp through repeated retraction cycles.

Color Output

Full-color CMYK.

CMYK (cyan, magenta, yellow, and black) reproduces logos, photos, and gradients accurately.

Finishing

Retractable cassette mechanism.

The cassette stores the graphic under spring tension and releases it smoothly each pull.

Size Range

36 in wide. Tabletop format with multiple height options available.

Sits on a table surface rather than standing freestanding on the floor.

Indoor/Outdoor Rating

Indoor use only. Not rated for outdoor wind or rain.

Expect reliable performance through repeated indoor event cycles.

Single/Double-Sided

Single-sided vinyl graphic.

Suits registration tables, lobby counters, and demo tables where viewers approach from the front.

Weight

8 to 25 lbs depending on display type and size.

Carry bag included with every unit for transport between events.
