

Product Specification Sheet

Silverstep 48 Inch Tabletop Retractable Banner Stands

Silverstep 48 Inch Tabletop Retractable Banner Stands run on single-sided vinyl with a retractable cassette base in silver and black. The tabletop format sits on any flat indoor surface, which suits registration desks, conference tables, and lobby counters. Order as a graphic package, hardware only, or graphic only depending on what you already own.

Material

Single-sided vinyl graphic, pre-installed in the retractable cassette.

Vinyl gives a smooth, wipe-clean surface that holds color through repeated retraction cycles.

Print Method

UV cured or dye sublimation.

UV cured bonds ink under ultraviolet light. Dye sublimation absorbs ink into the material for a glare-free finish.

Color Output

Full-color CMYK (cyan, magenta, yellow, and black).

Reproduces logos, photos, and gradients accurately across the full graphic width.

Finishing

Retractable cassette mechanism.

The spring-loaded cassette stores the graphic under tension and lets it pull up and retract cleanly.

Size Range

Width: 48 in. Format: tabletop. Multiple height options available within this format.

The 48 in width spans most of an 8 ft table, leaving roughly 24 in of table space on each side.

Indoor/Outdoor Rating

Indoor use only. Not rated for outdoor wind or rain.

Suitable for lobbies, conference rooms, trade show tables, and retail interiors.

Single/Double-Sided

Single-sided.

The graphic faces one direction, which suits table displays where visitors approach from the front.

Weight

Roughly 8 to 25 lbs depending on display type and size. Travel bag included with every unit.

One person can carry the full display without additional equipment.
