

Product Specification Sheet

Sky Tube Pinwheel Hanging Banners

Sky Tube Pinwheel Hanging Banners mount from the ceiling on a lightweight aluminum tube frame and print on stretch fabric in a multi-arm starburst shape. The pinwheel silhouette is the most visually complex flat sky tube shape we offer. It suits creative brands and exhibitors who need an overhead shape that reads differently from every other display on the show floor.

Material

Stretch fabric sock (a fabric sleeve that pulls tight over the aluminum frame, staying smooth under tension).

The stretch material holds the pinwheel shape without sagging at ceiling height.

Print Method

Dye sublimation (ink converts to a gas and bonds directly into the polyester fibers).

Colors stay bold and do not crack or peel over repeated use.

Color Output

Full-color CMYK (cyan, magenta, yellow, and black, the standard 4-color printing process).

Every color in your artwork prints accurately across the full pinwheel surface.

Finishing

Stretch fabric sock slides over the assembled aluminum tube frame. No adhesive, no hardware clips needed.

Frame tension holds the graphic in place without additional fasteners.

Size Range

Weight and overall dimensions vary by display type. Confirm your size at configuration.

Carry bag ships with every order and holds frame sections, fabric sock, and hanging cables.

Indoor/Outdoor Rating

Indoor use only. Not rated for outdoor wind or rain.

Plan for venues with ceiling rigging points and a minimum of 10 ft of clearance.

Single/Double-Sided

Available in single-sided or double-sided print. Backer options include white, black, or printed base section.

Choose based on your booth position and how many sightlines your display needs to cover.

Weight

Approximately 8 to 25 lbs depending on display type and size. Carry bag included with every kit.
