Step and Repeat Vinyl Banners

Step and Repeat Vinyl Banners are flat PVC Flex vinyl banners printed with a repeating logo pattern across the full surface. They carry no frame hardware and hang with grommets against any wall, fence, or pipe-and-drape system. This is our most budget-friendly step and repeat option for casual events where flash photography isn't the main concern.

Material

PVC Flex vinyl, 11 oz or 16 oz.

The 11 oz weight suits lighter indoor hangs. The 16 oz holds up outdoors and through repeated installs.

Print Method

Eco-solvent printing bonds ink directly to the vinyl surface.

Colors resist fading and won't crack or peel under normal handling.

Color Output

Full-color CMYK (cyan, magenta, yellow, black).

Reproduces your logo colors accurately across the entire repeating pattern.

Finishing

Grommets placed at standard intervals around the banner border.

Hang with rope, zip ties, or hooks on any wall, fence, or pipe-and-drape system.

Size Range

Single piece up to 10 ft wide by 10 ft tall.

Any banner with a width or height over 10 ft is made with a seam joining two panels.

Indoor/Outdoor Rating

Indoor use without a time limit under normal conditions.

Outdoor use typically lasts 6 to 12 months in direct sun before colors begin to fade.

Single/Double-Sided

Single-sided printing only.

The repeating logo pattern prints on the face. The back is plain white vinyl.

Weight

Varies by size and vinyl grade.

The 16 oz material adds roughly 45 percent more weight per square foot than 11 oz.
