

Product Specification Sheet

Custom Thanksgiving Banners

Custom Thanksgiving Banners print on PVC Flex vinyl in two weights suited to fall indoor and outdoor display. The 11 oz weight handles interior walls and cafeteria setups. The 16 oz weight holds flat outdoors through fall wind and rain. Both carry full-color harvest graphics from September through November without fading mid-season.

Material

PVC Flex vinyl. A smooth, glossy surface that resists moisture and holds its shape through fall weather.

Print Method

Eco-solvent or UV inkjet. Weather-resistant inks bond directly to the vinyl surface and hold color outdoors for roughly 6 to 12 months.

Color Output

CMYK full color. Reproduces fall foliage oranges, deep reds, and warm golds accurately across the full banner face.

Finishing

Brass grommets every 2 ft. Pole pockets along top or bottom edge. Hem and heat weld for a sealed, reinforced border.

Size Range

Fully custom sizing available. Banners wider or taller than 10 ft include a welded seam (a heat-bonded join that holds panels together without visible gaps).

Indoor/Outdoor Rating

Both supported. Outdoor banners last roughly 6 to 12 months with UV-resistant inks. Indoor banners last longer when kept away from direct moisture.

Single/Double-Sided

Single-sided is standard for wall-mounted display. Double-sided uses a blackout liner between the two printed faces to prevent show-through when the banner hangs free.

Weight

11 oz for indoor or light-duty use. 16 oz for outdoor display that needs to resist sagging and tearing in fall wind.
