Custom Glass Door Decals

Custom Glass Door Decals apply to commercial glass entrance doors using 4 mil white PVC calendar film with a permanent adhesive rated for both indoor and outdoor surfaces. Every decal prints at 720 DPI minimum with UV-cured ink, giving you a water-resistant, scratch-resistant graphic suited for daily door contact and direct sun exposure.

Material

4 mil white PVC calendar film, matte finish.

A thin but sturdy vinyl that conforms to flat glass surfaces without curling at the edges.

Print Method

UV printing (ink cured instantly by ultraviolet light).

Color locks into the surface on contact, so the graphic resists scratching and water from the first day.

Color Output

CMYK full-color at 720 DPI minimum.

CMYK (cyan, magenta, yellow, black) reproduces logos and photos with crisp, accurate color.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet.

The backing sheet stays intact so you peel cleanly without tearing the decal before application.

Size Range

Custom sizes up to 58.5 in wide.

Orders wider than 58.5 in ship in multiple pieces for manual alignment on the door.

Indoor/Outdoor Rating

Water and scratch resistant. Holds up 3 to 5 years on exterior glass in direct sun.

Lasts longer on interior glass.

Single/Double-Sided

Single-sided. Adhesive back, printed face.

The printed side faces outward and the adhesive bonds directly to the glass surface.

Adhesive

Permanent adhesive, bonds firmly to commercial glass.

Removable with a heat gun and slow peeling without leaving residue on clean glass.
