

Product Specification Sheet

Custom Sport Team Decals

Custom Sport Team Decals ship on 4 mil white PVC calendar film with a matte finish and permanent adhesive. They're built for any surface a team touches: lockers, gear bags, vehicles, water bottles, walls, and equipment. One product, every surface.

Material

4 mil white PVC calendar film, matte finish.

A thin but sturdy vinyl that conforms to flat and slightly curved surfaces like gear bags and hard hat shells.

Print Method

UV printed (ink cured instantly by ultraviolet light).

Creates a scratch-resistant, waterproof surface that holds color through rain, sweat, and direct sun.

Color Output

CMYK full-color at 720 DPI minimum.

CMYK (cyan, magenta, yellow, black) gives you bold, accurate team colors across every decal.

Finishing

Die-cut to custom shape, kiss-cut on backing sheet.

Each decal peels cleanly from the sheet with no trimming needed before application.

Size Range

Custom sizes up to 58.5 in wide.

Orders wider than 58.5 in ship in multiple pieces for manual alignment on large wall applications.

Indoor/Outdoor Rating

Rated 3 to 5 years outdoors. Water-resistant and scratch-resistant.

Indoors, decals typically last longer because UV exposure and weather contact are reduced.

Single/Double-Sided

Single-sided. Adhesive back, printed face.

Not rated for double-sided window applications where both faces need to be readable.

Adhesive

Permanent. Bonds to painted metal, plastic, glass, and wood.

Removable with a heat gun and slow peeling without damaging factory paint finishes.
