

Product Specification Sheet

Custom Sports Car Decals

Custom Sports Car Decals run on 4 mil white PVC calendar film with permanent adhesive, UV printed at 720 DPI minimum for bold, lasting color. They're built for flat and slightly curved car surfaces: door panels, bumpers, rear windows, and hoods. Die-cut to your exact shape, these decals hold up outdoors for 3 to 5 years.

Material

4 mil white PVC calendar film, matte finish.

A thin but sturdy vinyl that conforms to flat and slightly curved car surfaces without stretching or tearing.

Print Method

UV printed, ink cured instantly by ultraviolet light.

Creates a scratch-resistant, waterproof surface that holds color through road conditions and weather.

Color Output

CMYK full-color at 720 DPI minimum.

CMYK (cyan, magenta, yellow, and black) gives you accurate team colors across the full design.

Finishing

Die-cut to custom shape, kiss-cut on backing sheet.

We cut around your exact design outline so the backing stays intact and the decal peels cleanly.

Size Range

Custom sizes up to 58.5 in wide.

Orders wider than 58.5 in ship in multiple pieces for manual alignment on the vehicle surface.

Indoor/Outdoor Rating

Rated 3 to 5 years outdoors. Water and scratch resistant.

Holds up through sun, rain, and car washes after the first 72-hour cure period.

Single/Double-Sided

Single-sided only. Adhesive on the back, printed face on the front.

Designed to apply directly to the vehicle surface, not for hanging or window see-through use.

Adhesive

Permanent adhesive rated for painted metal, glass, and plastic.

Removable with a heat gun and slow peeling without damaging factory paint finishes.
