

Product Specification Sheet

Custom Bicycle Decals

Custom Bicycle Decals run on 4 mil white PVC calendar film with a matte finish, UV printed at 720 DPI minimum for water-resistant, scratch-resistant color. They're die-cut to any custom shape and sized to fit frame tubes, fork legs, and rim faces up to 58.5 in wide.

Material

4 mil white PVC calendar film. Matte finish. A thin but sturdy vinyl that conforms to flat and slightly curved frame surfaces.

Print Method

UV printed. Ink cures instantly under ultraviolet light, producing a waterproof, scratch-resistant surface layer.

Color Output

CMYK full color at 720 DPI minimum. CMYK (cyan, magenta, yellow, black) gives accurate color across logos, gradients, and fine detail.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet, so the paper liner stays intact for clean, tear-free peeling.

Size Range

Custom sizes up to 58.5 in wide. Orders over 58.5 in ship in multiple pieces with alignment markings.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years. Water and scratch resistant through road spray, UV exposure, and regular cleaning.

Single/Double-Sided

Single-sided only. Printed face on top, permanent adhesive on back. Not designed for see-through applications.

Adhesive

Permanent adhesive. Bonds to painted metal, carbon fiber, and plastic. Removable with a heat gun and slow peel without harming factory paint.
