

Product Specification Sheet

Custom Car Rear Window Decals

Custom Car Rear Window Decals ship on 4 mil white PVC calendar film with a matte finish and permanent adhesive, rated for 3 to 5 years of outdoor use. This product is single-sided: the adhesive back bonds to glass, and the printed face shows from outside the vehicle. Best for rear glass on personal vehicles, company cars, and service fleets.

Material

4 mil white PVC calendar film, matte finish.

PVC calendar film is a thin, flexible vinyl that conforms to flat and slightly curved glass without cracking or bubbling.

Print Method

UV printed.

UV printing cures ink instantly under ultraviolet light, giving you a waterproof, scratch-resistant surface.

Color Output

CMYK full color, 720 DPI minimum.

CMYK is the four-color process using cyan, magenta, yellow, and black. 720 DPI gives crisp edges on logos and fine text.

Finishing

Die-cut to custom shape, kiss-cut on backing sheet.

Kiss-cut (cut through vinyl only, backing sheet stays intact) means your decal peels cleanly without tearing.

Size Range

Custom sizes up to 58.5 in wide.

Designs over 58.5 in ship in multiple pieces with alignment guides for manual joining.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years. Water and scratch resistant.

Holds through car washes, rain, and direct sun. Longer indoors away from UV exposure.

Single/Double-Sided

Single-sided.

The adhesive back bonds to glass. The printed face shows from outside the vehicle.

Adhesive Type

Permanent adhesive.

Bonds firmly to glass and factory finishes. Removable with a heat gun and slow peeling without leaving paint damage.
