

Product Specification Sheet

Custom Dirt Bike Decals

Custom Dirt Bike Decals run on 4 mil white PVC calendar film with matte finish, UV printed and die-cut to any shape you submit. They cover number plates, fenders, and swingarms and hold up to mud, water, scratches, and direct sun across 3 to 5 years of outdoor riding.

Material

4 mil white PVC calendar film, matte finish.

PVC calendar film is a thin, flexible vinyl that conforms to flat and slightly curved panels like fenders and number plates.

Print Method

UV printing, ink cured instantly by ultraviolet light.

The cured surface is scratch resistant and waterproof from the moment it leaves the press.

Color Output

Full-color CMYK at 720 DPI minimum.

CMYK is the 4-color process using cyan, magenta, yellow, and black to reproduce any color in your design.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet.

Die-cut trims to your exact design outline. Kiss-cut leaves the backing sheet intact for clean peeling.

Size Range

Custom sizes up to 58.5 in wide.

Designs wider than 58.5 in ship in multiple pieces with alignment markings for manual placement.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years.

Water resistant, scratch resistant, and holds up to direct sun, mud, and road debris across the full rating period.

Single/Double-Sided

Single-sided.

The adhesive back bonds to the panel surface. The printed face carries the graphic.

Adhesive Type

Permanent adhesive.

Bonds firmly to painted metal, plastic, and composite panels. Removable with a heat gun and slow peeling on most factory paint.
