

Product Specification Sheet

Custom Jeep Hood Decals

Custom Jeep Hood Decals run on 4 mil white PVC calendar film with permanent adhesive and UV-printed color at 720 DPI minimum. This is a single-sided decal built for the widest flat panel on your Jeep. It holds up outdoors 3 to 5 years through trail runs, rain, and direct sun.

Material

4 mil white PVC calendar film. Matte finish. A thin but sturdy vinyl that conforms to flat and slightly curved hood surfaces.

Print Method

UV printed. Ink cures instantly under ultraviolet light, giving you a scratch-resistant, waterproof surface that holds up to trail washing.

Color Output

CMYK full color at 720 DPI minimum. CMYK (cyan, magenta, yellow, and black) delivers accurate color across the full hood graphic.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet so the decal peels cleanly without tearing.

Size Range

Custom sizes up to 58.5 in wide. Orders wider than 58.5 in ship in multiple pieces with alignment guides.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years. Water and scratch resistant. Normal car wash use is fine after the first 72-hour cure period.

Single/Double-Sided

Single-sided. Printed face up, adhesive bonds directly to the hood paint.

Adhesive Type

Permanent adhesive. Bonds firmly to painted metal. Removable with a heat gun and slow peeling without damaging factory paint.
