Product Specification Sheet

Custom Jeep Windshield Decals

Custom Jeep Windshield Decals ship on 4 mil white PVC calendar film with a matte finish and permanent adhesive, UV printed at 720 DPI minimum. Each decal is die-cut to your exact design shape and kiss-cut on the backing sheet for clean peeling. Best for the windshield sun visor band on Jeep Wrangler, Gladiator, and similar models.

Material

4 mil white PVC calendar film, matte finish.

Conforms to flat and slightly curved glass surfaces without bubbling or lifting at the edges.

Print Method

UV printed.

Ink cures under ultraviolet light instantly, producing a waterproof, scratch-resistant surface that won't crack under road vibration.

Color Output

CMYK full color at 720 DPI minimum.

CMYK (cyan, magenta, yellow, black) gives accurate color across logos, gradients, and photography.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet.

Die-cut follows your exact design outline. Kiss-cut keeps the backing intact so the decal peels cleanly every time.

Size Range

Custom sizes up to 58.5 in wide.

Orders wider than 58.5 in ship in multiple pieces with alignment guides included.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years.

Resists water, scratches, UV fading, and car wash cycles. Lifespan runs longer indoors away from direct sun.

Single/Double-Sided

Single-sided.

Adhesive bonds to the glass surface. The printed face shows outward from the windshield band.

Adhesive Type

Permanent adhesive.

Bonds to glass, painted metal, and plastic. Removes with a heat gun and slow peel without damaging factory finishes.
