

Product Specification Sheet

Custom Motorcycle Vinyl Decals

Custom Motorcycle Vinyl Decals are die-cut from 4 mil white PVC calendar film and UV printed in full color at 720 DPI minimum. They fit curved motorcycle surfaces including the fuel tank, fender, fairing, and helmet, with permanent adhesive rated for road debris, water, and direct sun.

Material

4 mil white PVC calendar film, matte finish.

Thin but sturdy vinyl that conforms to flat and slightly curved motorcycle surfaces without bridging.

Print Method

UV printed (ink cures instantly under ultraviolet light).

Produces a scratch-resistant, waterproof surface that holds up to road conditions for 3 to 5 years.

Color Output

Full-color CMYK at 720 DPI minimum.

CMYK (cyan, magenta, yellow, black) gives accurate color across logos, gradients, and detailed artwork.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet.

Kiss-cut means the backing sheet stays intact, so peeling and applying the decal is straightforward.

Size Range

Custom sizes up to 58.5 in wide.

Orders wider than 58.5 in ship in multiple pieces with alignment guides included.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years.

Resists water, road debris, and direct sun through normal riding conditions including rain and highway speeds.

Single/Double-Sided

Single-sided.

Adhesive on the back, printed face on the front. Not designed for window see-through use.

Adhesive Type

Permanent adhesive, outdoor rated.

Bonds to painted metal, plastic, and composite. Removable with a heat gun and slow peeling without damaging factory paint.
