

Product Specification Sheet

Custom Truck Decals

Custom Truck Decals run on 4 mil white PVC calendar film with permanent adhesive, UV printed at 720 DPI minimum. They're built for truck door panels, tailgates, rear windows, and cab surfaces, and rated for 3 to 5 years of outdoor use.

Material

4 mil white PVC calendar film. Matte finish. Conforms to flat and slightly curved truck surfaces without lifting at the edges.

Print Method

UV printed. Ink cures instantly under ultraviolet light for a scratch-resistant, waterproof surface that holds up under road conditions.

Color Output

CMYK full color at 720 DPI minimum. CMYK (cyan, magenta, yellow, black) gives you sharp text and clean logo edges at typical truck viewing distances.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet so the decal peels cleanly without tearing the design.

Size Range

Custom sizes up to 58.5 in wide without a seam. Designs wider than 58.5 in ship in multiple pieces with alignment guides.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years. Resists water, scratches, direct sun, and road debris across all standard truck placements.

Single/Double-Sided

Single-sided. Adhesive on the back, printed face on the front. Not suited for window see-through applications.

Adhesive Type

Permanent adhesive. Bonds to painted metal, glass, and plastic. Removable with a heat gun and slow peeling without damaging factory paint finishes.
