

Product Specification Sheet

Custom Truck Hood Decals

Custom Truck Hood Decals are die-cut vinyl graphics built for the largest flat panel on your truck. Every decal runs on 4 mil white PVC calendar film with UV-cured ink and permanent adhesive. Sized up to 58.5 in wide, most full-size truck hoods fit in a single piece.

Material

4 mil white PVC calendar film, matte finish.

A thin but sturdy vinyl sheet that conforms to flat and slightly curved hood surfaces without lifting.

Print Method

UV printed.

Ink cures instantly under ultraviolet light, producing a waterproof, scratch-resistant surface that holds through road conditions.

Color Output

CMYK full color at 720 DPI minimum.

CMYK (cyan, magenta, yellow, and black) reproduces your full-color artwork with crisp, accurate output.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet.

Die-cut traces the exact outline of your design. Kiss-cut keeps the backing intact for clean peeling during application.

Size Range

Custom sizes up to 58.5 in wide.

Orders wider than 58.5 in ship in multiple pieces with alignment guides for manual seaming.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years. Water and scratch resistant.

Holds through direct sun, rain, and normal car wash use after the first 72-hour cure period.

Single/Double-Sided

Single-sided. Adhesive back, printed face.

The printed surface faces outward and bonds directly to the hood paint.

Adhesive

Permanent adhesive. Bonds to painted metal, glass, and plastic.

Removable with a heat gun and slow peeling without damaging factory paint finishes.
