

Product Specification Sheet

Custom Truck Windshield Decals

Custom Truck Windshield Decals ship on 4 mil white PVC calendar film with a matte finish and permanent adhesive rated for outdoor use. They're UV printed at 720 DPI minimum in full CMYK color and die-cut to your exact design shape. Best for fleet identification, small business branding, and personal truck customization on cab glass up to 58.5 in wide.

Material

4 mil white PVC calendar film, matte finish.

A thin but sturdy vinyl that conforms to flat and slightly curved glass without bubbling.

Print Method

UV printed.

Ink cures instantly under ultraviolet light, bonding to the vinyl for a scratch-resistant, waterproof surface.

Color Output

CMYK full color at 720 DPI minimum.

CMYK uses cyan, magenta, yellow, and black to reproduce accurate color across logos, photos, and text.

Finishing

Die-cut to custom shape, kiss-cut on backing sheet.

We cut around your exact design outline. The backing sheet stays intact so the decal peels cleanly.

Size Range

Custom sizes up to 58.5 in wide.

Sizes beyond 58.5 in ship in multiple pieces with alignment markings for joining on the glass.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years.

Resists water, direct sun, and road debris. Holds up through car washes after the first 72-hour cure period.

Single/Double-Sided

Single-sided.

Adhesive on the back, printed face visible from outside the vehicle.

Adhesive Type

Permanent adhesive, removable with heat.

Bonds firmly to factory glass. A heat gun and slow peel remove it without leaving residue.
