

Product Specification Sheet

Custom Vinyl Car Decals

Custom Vinyl Car Decals run on 4 mil white PVC calendar film with permanent adhesive, UV printed at 720 DPI minimum for outdoor durability. They stick to painted metal, glass, and plastic on door panels, bumpers, rear windows, and hoods. Most orders hold up outdoors for 3 to 5 years.

Material

4 mil white PVC calendar film. Matte finish. Conforms to flat and slightly curved vehicle surfaces without lifting at edges.

Print Method

UV printed. Ink cures under ultraviolet light, giving you a scratch-resistant, waterproof surface that survives car washes and direct sun.

Color Output

CMYK full color at 720 DPI minimum. CMYK (cyan, magenta, yellow, black) gives accurate color across logos, photos, and fine text.

Finishing

Die-cut to custom shape. Kiss-cut on backing sheet for clean peeling and bubble-free application.

Size Range

Custom sizes up to 58.5 in wide in a single piece. Sizes over 58.5 in ship in multiple pieces with alignment markings.

Indoor/Outdoor Rating

Outdoor rated 3 to 5 years. Water and scratch resistant after a 72-hour adhesive cure period following application.

Single/Double-Sided

Single-sided. Printed face outward, adhesive on the back, applied directly to the vehicle surface.

Adhesive Type

Permanent adhesive. Bonds to painted metal, glass, and plastic. Removable with a heat gun and slow peeling on factory paint finishes without paint damage.
