

Product Specification Sheet

Custom Magnetic Truck Signs

Custom Magnetic Truck Signs run on a 30 mil flexible magnetic sheet with a white printable face, sized for pickup truck door panels, bed panels, and larger commercial truck body surfaces. They stick to steel with no adhesive and peel off clean in seconds. Best for service trade owners and fleets who need removable full-color branding on trucks they also use personally or under lease.

Material

30 mil flexible magnetic sheet (removable, no adhesive, white printable face).
Sticks to steel body panels without residue and peels off cleanly in under 10 seconds.

Print Method

Direct UV print, ink cured instantly by ultraviolet light directly onto the magnetic surface.
The cured surface resists scratching, rain, and road grime through regular daily use.

Color Output

CMYK full-color (cyan, magenta, yellow, and black combined to reproduce any logo color or photo).
Colors print sharp and accurate across the full sign face at any size.

Finishing

Straight or rounded corners available.
Rounded corners prevent edge lifting at highway speed and are the better choice for any sign that stays on during driving.

Size Range

Custom sizes up to 24x36 in for standard truck door panels. Larger sizes available for pickup bed panels and commercial truck body surfaces.
No fixed size list. Order the dimensions that fit your specific panel.

Indoor/Outdoor Rating

Rated for outdoor use. UV-printed magnetic signs hold up 2 to 3 years with proper weekly care.
Remove and dry both surfaces after heavy rain to prevent moisture trapping between the sign and panel.

Single/Double-Sided

Single-sided only.
The magnetic backing occupies the reverse face, so print appears on the front face only.

Weight

A 12x24 in sign runs roughly 0.5 lb. A 24x36 in sign runs roughly 1.5 lb.
Exact weight varies by size ordered.
