

Product Specification Sheet

Blank Pleated Table Covers

Blank Pleated Table Covers are solid-color, unprinted covers built from 600D PU polyester with a fitted construction and decorative pleat finish. They fit 4 ft, 6 ft, and 8 ft standard folding tables with full 4-sided coverage. No printing step means production runs 1 to 2 business days, faster than any custom-printed table cover we make.

Material

600D PU polyester.

600D is the denier count, a measure of thread thickness. Higher denier means a heavier, tougher fabric. The PU (polyurethane) coating adds moisture resistance and increases durability across repeated use.

Print Method

None.

Color comes from the fabric itself, not ink or coating. No dye sublimation is applied.

Color Output

Solid color only.

Stock colors typically include white, black, blue, and red. Check the product configurator for current availability by table size.

Finishing

Hemmed edges on all sides. Fitted corners. Decorative pleats along the front and sides for a formal drape.

Pleats add visual texture without printing.

Size Range

Fits 4 ft, 6 ft, and 8 ft standard folding tables.

Each size is cut to that specific table length. Select your size at checkout.

Indoor/Outdoor Rating

Indoor and light outdoor use.

Not rated for heavy rain or sustained outdoor exposure. Colors hold through 50 or more wash cycles.

Coverage

4-sided fully enclosed.

All four sides are covered. No open-back option is currently available in the blank pleated style.

Weight

Roughly 2 to 4 lbs depending on table size.

Lighter than most folding tables, so transport and storage between events is straightforward.
