

Product Specification Sheet

Stretch 4-Sided Table Covers With Zipper

Stretch 4-Sided Table Covers With Zipper wrap a standard 6 ft or 8 ft folding table in 8.8 oz spandex-blend polyester that pulls skin-tight on all four sides. Full-color dye sublimation runs across every panel at 300 DPI. These covers suit tech companies, startups, and modern brands that need a wrinkle-free, sculpted table presence at design-forward events.

Material

8.8 oz spandex-blend polyester with four-way stretch.

Grips the table legs and holds every panel flat without clips or ties.

Print Method

Dye sublimation at 300 DPI.

Ink bonds permanently into fabric fibers so graphics do not crack, peel, or fade after washing.

Color Output

Full color across all printed panels.

Reproduces gradients, photos, and fine text without banding or color shift.

Finishing

Hemmed edges on all panels. Fitted corners. Rear zipper panel for under-table access.

Shape holds under spandex tension without bunching at the seams.

Size Range

Sized to fit standard 6 ft or 8 ft collapsible folding tables.

Spandex stretch needs an exact size match. Measure your table before ordering.

Indoor/Outdoor Rating

Suited for indoor use and light outdoor use in calm, dry conditions.

Colors rated for 50 or more machine washes without noticeable fading.

Single/Double-Sided

All-over print on all four sides plus the top panel.

Every visible surface carries your design.

Weight

Roughly 2 to 4 lbs depending on table size.

Spandex fabric folds more compactly than standard polyester, so the package ships smaller than its size suggests.
